Featured Disk

WB119ABCDE: Font Set This collection contains over 100 typefaces for use with Professional Page 3.0 or PageStream 2.1+. These fonts will output to any laser printer or dot-matrix printer with no jaggles, thanks to outline font technology. Very pro-looking typefaces. 5 disk set, counts as 4.

New Disks

FD85: UChess - The strongest playing Chess program available for the Amiga period. Requires 68030+, Workbench 2+, 4MB RAM. Supports AGA graphics.

FD84: Games! Deluxe PacMan is better than the original--20+ mazes, special "power-ups" with outstanding graphics. ThinkAmania is the classic game of concentration--with beautifully drawn HiRes images.

FD83: Arcade Series: Contains Croaker and Squamble, two great clones of the arcade games "Frogger" and "Scramble."

WB126: EdPlayer - music MOD player that looks, acts and plays like your CD player...AmigaWorld's #1 MOD utility. Plus MOD songs.

WB124: Flags of the World - Two modes: click and learn or a game to test your knowledge. Great graphics--fantastic learning tool. Has current Russia & Yugoslavia republics. Req. WB 2.0+ and 1 MB RAM.

WB123AB: Flags of the World - same as above, but for 1.3, Req. 1 MB RAM.

WB122: System Optimizer - KCommodity gives you memory meters, mouse/keyboard enhancements, online timers plus many others...too numerous to list here. REorg will optimize hard and floppy disks for a big speed increase. HDMem will allow you to use up to 2 megs of hard-drive space for virtual memory!!! (Req. 68020+ w/MMU). All require WB2.0+.

WB121: ProPage 3 Enhancer - This disk contains over 40 "Genies" for use with ProPage 3.0, including useful ones like Make Pie Chart and Resize Text to Fit Box to name a few. Also includes structured & bitmap clipart for unique borders...a must have for all PPage 3 users.

DD90: Advanced Utilities - CompressDisk doubles the capacity of your hard-drive on the fly with compression!!! Also contains: disk optimizer, SCSI mount utility, keypad editors, Enforcer, Undelete & more. Most programs require 2.0+.

DD89: Uedit - Probably the most powerful text editor ever written for the Amiga. Previously commercial, now public domain. Req. 1 MB RAM.

DD88: GnuPlot - this is a command-driven interactive function plotter. Creates stunning plots/graphs of mathematical functions. Requires harddrive and unpacks to over 1.6MB of code/data...very impressive!

DD87: Amiga Intuition Based Benchmarks - a great package with all the popular benchmarks including: Sieve, Dhrystone, Savage, lMath & Matrix...all with a graphical mouse interface.

Fun Disks

FD5: Tactical Games - BullRun a Civil war battle game, in Metro you play the role of a city planner. If you build wisely then your system will be a success, but poor planning will lead to disaster and financial ruin. Very habit forming.

FD6: GAMES! - This disk is chocked full of games including: Checkers, Clue, Jeopard - An enhanced version of Risk, RushHour - Surprisingly addicting, and SpaceWar - Best described as a cross between Combat-Tanks and asteroids.

FD7: PacMan - This disk contains several PacMan type games including: PacMan87, MazMan and Zonix.

FD9: Moria (5.4) - This has great graphic controls, multiple spells, similar to Larn and Hack. Play time several weeks!

FD10: HackLite - A dungeon adventure game. Considered a must-have classic. Play time several weeks or months!

FD12A&B: Star Trek, The Game - This is by far one of the best Star Trek games ever written for any computer. It features mouse control, good graphics, digitized sound effects and great gameplay. Counts as 2 disks. Req. 1MB and two drives (or hd). No system 2.04.

FD13: Board Games - contains multiplayer Monopoly, Dominoes, Paranoids, and others.

FD17: Educational Games - This disk includes several games for the kids including geography, math, science, and word games, also includes Wheel of Fortune.

FD20: Tactical Games - MechForce(3.72); A game that simulates combat between two or more giant, robot-like machines. Simple words can't begin to give you the feel of piloting a 30-40 foot tall, fire breathing, earth shaking colossus that obeys your every whim.

FD22: Arcade Games - This disk has MoonBase - A true classic game. The best lunar lander game we have ever seen, very challenging.

FD24: Strategy Games and Others - Includes Dicey, a yahtzee type clone, MM a master mind type clone, Flipper an Othello type clone. China a great implementation of Shanghai, Circuit Wars a challenging game based on electronics, and Etrain a computer based model train set construction set.

FD26: Arcade Games - Marble-slide, this is a truly commercial quality game. Similar to a Lucas' game named PipeDreams, excellent playability and entertainment. Mutants, a small version of the arcade game of the same name, also SuperBreakout a Pong/Arkanoids type game.

FD33: Arcade Games - Freddy a mario brothers type of game, Gerbils a target practice game, PipeLine, a German interpretation of Pipe Dreams. Tron a light cycles version, and Wetroids a wonderful version of asteroids with a hilarious twist.

FD34: Games - Includes WellTrix a derivative of the addictive game of tetris, and new version of BackGammon.

FD35: Omega (v1.3) - A dungeon and outdoors adventure game in a similar vein as Hack, Rouge, and Moria. This version is considerably faster and better than all previous versions. Play time--months.

FD37A&B: Empire - One of our best! Now with a full-featured graphic front end. Empire is a rich simulation of international politics, economics and war. Modem compatible. Counts as two disks.

FD39A&B: Tobias Star Trek - This is a new completely different version of Star Trek than that found on FD12. This one was created by the German author Tobias. Full English Doc's. Excellent!!! Counts as two disks. Requires 512k memory.

FD43: Game tricks/hints - A disk full games cheats, hints, and backdoors for all of your favorite games. Hints for Shadow of the Beast, Dungeon Master, Space Ace, Leisure Suit Larry, Moria, Neuromancer, and over 300 more games.

Special • Special • Special • Special • Special

For every 15 disks you order, pick any 4 disks absolutely complimentary!!

*Anti-Virus is always free on all orders of 20 or more disks--a \$20 value!

FD44: Game - Mechfight is an out of this world role-playing adventure comparable to Hack and Moria. The setting, interplanetary colonies and space stations. Your quest is to explore the world, take time out to liberate bad guys of their most valuable possessions, engage in mortal combat against robots and alien life forms, pick up a new amiga 9000. Most of all, don't forget to stay alive...

FD45: Arcade - Three good shoot'em ups. Batman, save the city from the Joker. DriveWar, gangsters are moving in on your territory, try and stop them! Web, a spidery, bug affair of eat or be eaten.

FD48: Puzzles - Contains CWP - a very well done full featured crossword puzzle game and generator, Concentration - like the card game. Hollywood Trivia, a very large set of trivia questions on topics including StarTrek TNG, HitchHikers Guide, Indiana Jones & StarWars.

FD49: Chaos Cheats - This disk contains everything you wanted to know about for Chaos Strikes Back, including full maps, spells, object locations, super characters and more.

FD50: Submarine Game - Sealance, one and a half years in the making, this an outstanding submarine tactical game. Commercial quality, highly recommended.

FD52: Classics Games - PetersQuest a well done Mario brothers type of game. Jybm, a two player missile command clone, and Vstank, a tank commander game.

FD53: Great Arcade - On this disk is a wonderful implementation of the ever popular classic arcade game Defender. Also contains Air Race, a WWII flying ace arcade game, and Psycoblast, a new creation idea game.

FD54: FoodFight - Contains Galactic FoodFight, a wacky spaced out arcade game loaded with shooting ketchup, and hamburger eating monsters, and flying pizzas. Sorry, no WB2.0.

FD57: Arcade Games - Includes 2 true commercial quality games. MegaBall is the successor to Ball; features 5 full musical scores, multiple levels and addicting gameplay. Gravity Attack is a psychedelic trip through several different worlds--each distinctly different.

FD58: GAMES! - Includes Steinschlag; a great

FD60: Games - In Nebula, race over a 3-D world to destroy enemy installations. Interferon; a great Dr. Mario clone. Enigma; is it a game or a puzzle?

FD61: Games - Solitaire; great graphics, plays two versions. Kluge; an interesting piece of eye-candy. Extreme Violence; 2 player kill or be killed game. YATC; A Tetris clone with artificial intelligence. Genesis; create realistic 3-d fractal worlds.

FD62: Pom-Pom Gunner - An extremely smooth and well done World War II gunner simulation. Requires 1 meg of chip memory.

FD64: Games - Wizzy's Quest - a "great" 50 level game with great graphics. Cubus - a 3-dimensional Tetris type game (rotate and move in 3 dimensions). Husker Du - Colors and pattern rather than shape in this Tetris-esque game; 5 screens and 3 levels of difficulty. Req. Fat Agnus (1 Meg Chip RAM)

FD67: Arcade - Includes Llamatron a well-done "Robotron" clone. Hate is a "terrific" commercial grade Zaxxon clone with multiple levels/worlds and smooth diagonal scrolling...a 10!

FD68: Potpourri - Eternal Rome is a strategic simulation of the Roman Empire including military, diplomatic, political, economic and social factors. Lord of Hosts is a board strategy game for 2 players. In Moonshine, you've got to get the hooch across the state line--a great rolling, scrolling driving game!

FD69: MindGames - Had enough of shoot-em up blasting games? Relax, and let these 21 games exercise your mind instead of your wrist.

FD70: SpaceGames - Contains AmiGoids, >finally!< an Asteroids game that takes advantage of the Amiga--totally configurable with great sound & graphics. In Cosmostruck the object of the game is for each Cosmostruck team to acquire the most points while constructing energy ducts between the space stations and planetoids.

FD71A&B: Star Trek: TNG Trivia Challenge - So you think you know *The Next Generation*, huh? Complete with fantastic sampled sounds and digitized images, this game even looks and sounds like a genuine Star Trek terminal! VERY thorough and complete! Two disk set, counts as two.

FD72ABC: Sword of the Warlock - This is a demo version of a great public domain graphic dungeon adventure game. The adventure spans three diskettes and allows two players to go adventuring. The game has a 'Bards Tale' feel to it. Three disk set, counts as 2. Requires 1 meg and 2 floppy drives or HD.

Special Product!

QT1: The A64 Package - A very complete Commodore 64 emulator. Supports any CPU and is fully compatible with WB2.0. This version includes a special adaptor that will allow you to connect your 64's 1541 disk drive to your parallel port of your Amiga for total emulation. Two disk set, counts as two. Special price \$49.95.

FD73: Arcade Series - Intruder Alert! is a MULTI-level "Berserk" clone. Features smooth gameplay, great graphics & digitized sounds.

FD74: Arcade Series - RingWar is an "Outer Limits" clone with vectorized graphics. MotherLode is a "Lode Runner" clone with 50 levels! In BlitzTanks, they're coming at you from all directions!! Call in air strikes and use your heavy artillery to survive!

FD75: Arcade Series - Descender is a clone of the classic arcade game "Tempest", complete with vectorized graphics. Tanx is the classic battle of trajectories and inertia between two

tanks--incredibly well done! Search is a maze game unlike any other--included is a level editor too. (Tanx requires 1 meg chip memory=Fat Agnus)

FD76: Catacomb - is a full graphic adventure game with beautiful graphics and a very slick icon/mouse driven interface.

FD77: Arcade Series - Galaga'92 is a clone of the arcade game of the same name with several gameplay enhancements--with smooth, sharp graphics it's better than the original! Pharaohs Curse is a clone of the original C64 classic. Diplomacy is a beautifully computerized version of the Avalon Hill board game--conquer or be conquered! Galaga requires 1meg chip memory = Fat Agnus.

FD78: Potpourri - Lothian is a great Ultima-type adventure game with great graphics. Rocky is a Boulderdash-type clone.

FD79: Addams Family Quiz - They're delightfully creepy and spooky and now they're in your Amiga! Classic digitized graphics and sound samples make this a real crowd-pleaser. Wait till you "talk with Cousin Itt!"

FD80: Technoban - If you like logic puzzles, this disk is for you! Create your own puzzles with the built-in editor or play the many pre-made ones. Requires Fat Agnus (1 MB chip memory).

FD81: SuperGames - Some of the best games--Donkey Kong is better than the original with an extra level! Frantic Freddie and Trailblazer are both fast-paced arcade games. Mad Bomber is the classic game of "Kaboom" redone with an Amiga flare. ALL of these games are excellent!

FD82: Intrepid - In the Arctic ice, you control a tank on a mission to rescue hostages in this superbly crafted Amiga original.

Workbench Disks!

WB4: Telecommunication - several excellent PD communication programs designed to get you on line quickly and easily. Access (1.42) an ANSI term program. Comm (1.34), one of the best. Jrcomm and Handshake a full featured VT. See also WB102.

WB5: Fonts #1 - Several fonts (35) for the Amiga, also included are five PageStream fonts, and ShowFont - a font display program.

WB7: Clip Art - This disk is loaded with black and white clip art. Art includes, trees, watches, tools, US & State maps, and more.

WB9: Icons - Truly a multitude of various types and kinds. Also includes IconMeister, IconLab, and others great utilities to help generate icons.

WB10: Virus Killers - The latest and best VirusX(4.01), Kv(2.1), and ZeroVirusIII v1.10

WB11: Business - Clerk 4.0--A full featured business accounting program for the small company. Includes receivables, payables, end of month processing.

WB12: Disk Utilities - This great disk is loaded with wonderful utilities for everything including making disk labels, disk cataloging, disk recovery, file recovery, archiving and organizing, and all sorts of file manipulation. Also includes SID, the best file and directory display program for the Amiga, greatly reduces the need for a CLI, a real must have!

WB13: Printer Drivers and Generator - over 70 different drivers, and if these don't do it, with PrtDrvGen you can make your own. Has drivers for HPLJ3 & 4!

WB15: Business - Contains a spreadsheet, a database, a project/time management program and financial analysis (stocks).

WB16: Business - Contains an inventory manager, a loan analysis program, a great calendar/scheduler, a rolodex program, and Pennywise, a good "Cash Book" accounting program for home or office.

WB18: Word/Text Processors - This disk contains the best editors. Includes TextPlus (v2.2e) a full featured word processor, Dme(v1.35) a great programmers editor with strong macro features, TexED(v2.8) an enhanced Emacs editor, and a spell checker.

WB20: General Interest - DiskSalv V1.42, a disk recovery program for all Amiga file systems, FixDisk V1.0 another file recovery program with features DiskSalv doesn't have, 3DLook gives a 3D appearance to your 1.3 WorkBench. Clean V1.01, a program to de-fragment memory. Tracer, trace any part of an image.

WB22: Fonts #3 - Several more great fonts. These, like the other font disks work great with DPaint and WYSIWYG word processors.

WB24: Animation and Paint - On this disk, DA a complete commercial quality cell oriented animation package. Movie, an "ANIM" player for standard animation. QuickFlx, an IFF slide show and cell animation program. Also on this disk are two PD paint programs of good quality.

WB25: Educational - On this disk are two programs that can generate maps of differing types, World Data Base uses the CIA's database to generate detailed maps of any entered user global coordinates. Also Paradox, a great demonstration of Albert Einstein General Theory of Relativity.

WB26: Disk Utilities #2 - MrBackup, KwickBackup - two well done utilities to help with harddisk and floppy disk backups. FileMast, a binary file editor and label printer. Disk label printer, with very powerful features.

WB27: Nagel - 26 Patrick Nagel IFF pictures of beautiful women.

WB29: Graphics and Sound - This disk has several different Mandelbrot type programs for generating stunning graphics. Includes MandelMountains, a realistic terrain generator. Fracgen, generated recursive fractals from user input. Mandelbrot and Tmandel, two fast mandelbrot generators...also Mostra, will display ALL IFF's. Sound, a great IFF sound player--will play anything. Try this disk, you'll love it!

WB33: Circuit Board Design - several terrific routines for the electronic enthusiast. Includes PCBtool, a circuit board design tool. LogicLab, circuit logic tester. Mcad (1.26), a new release of this PD CAD program--now comes with pre-drawn common circuit components for insertion into schematics.

WB35: 3D Graphics - Several 3D modeling/ray tracing programs. 3DFonts, 3DFontMaker, Make3DShape.

WB36: Graphics - Create stunning graphical images. Includes MPath, creates swirling galaxy images. Roses, produce wonderful variations of images that are symmetrically similar to a rose. RayShade, a very good raytracing program--create your own beautiful 3D graphics.

WB37: Educational - Educational games and puzzles that cover math, geography, spelling, and books. Ages 6 - 15

WB38: Plotting and Graphics - PlotXY is the most powerful full featured plotting package...used by many colleges and universities. A welcome addition to our library! Highly recommended. Plans, a incredibly well done Computer Aided Drafting program--very full featured. Tessellator, a program that helps generate fantastic looking, recursive M.C. Escher type pictures.

WB40: Music - "CD on a disk", 90 minutes of modern music on this well presented collection. Req. 2 Drives or HD.

WB41: Music - MED (3.20), an incredibly well done, full featured music editor. Create your own stunning music directly on your the Amiga. Similar to SoundTracker but better. PD software at its finest.

WB43: Business - This disk contains AnalytiCalc, probably the best PD spread-sheet program for the Amiga--a full featured spreadsheet with many features expected in a commercial package. 1.2 MB required!

WB46: Clip Art - HiRes IFF clip art with the following motifs - embellishments (borders, doodads), people, and transportation.

WB48: Clip Art - HiRes IFF clip art with the following motifs - Holidays, music, medical, and miscellaneous.

WB49ABC: Animation Sampler - On this three disk sampler set (counts as two disks) are some of the best animations that have been created over the last three years. Several examples of "Movie" type animations some with spectacular raytraced reality. Also several European style or "Demo" animation with incredible graphics and sound. These truly show off the creative edge of an Amiga!

WB50: Animation - Seven of the best European style animations or "Demos", including - scientific 451, subway (a U.S. entrant, also our favorite), sunrise, thrsdemo, night, waves, and wow.

WB51: Animation - On this disk are two excellent movie style animations including ShipRotation - a futuristic space ship orbiting a surrealistic world (great!), and RV-3, a DpaintIII anim of a rather wacked out airplane.

WB53: Graphics - The disk contains C-light, the easiest to use raytracing we have seen to date. This one started out life as a full featured commercial product similar to Sculpt3D. Raytracing programs can generate stunning, realistically shaded objects. Also sMovie, a full featured video text titler similar to ProVideo and Broadcast Titrer. Great video scrolling, wipes, special effects, & more.

WB54: Printing - This disk contains several routines to help with the chore of printing. Includes Gothic - Finally a Banner printer for the PD! PrintStudio - a well implemented all-purpose printer utility with a very comfortable graphic interface and many advanced features. Lila, with ease print ASCII files to a PostScript

DESKTOP VIDEO

Audio Production for Video Toaster

From Atomic Toaster—learn how to use your Video Toaster to produce broadcastable multi-track, digital audio and CD-quality music on and in your Amiga. Includes the use of Sunrize Studio 16 with AD1012 and AD516 sound boards, SuperJam!, Bars and Pipes Professional 2.0, Triple Play Plus, Sync Pro, Dr. T's Phantom, MIDI devices, and more. V4008 \$39.95

Desktop Video Vol. 1 Razza Video's best tape for getting started with Amiga Desktop Video. Features excellent advice from experts on camcorders, editors, peripherals, techniques, titling and more. V2062 \$18.95

Desktop Video Vol. 2 More help on desktop video. Includes comparisons of tape formats, and information on the Video Toaster, LightWave 3D, DPaint IV, DCTV, Virtual Reality, and more. V2063 \$18.95

VideoMaker, The Video Series Learn from the experts. V2065 \$16.95

The Digital Mixer Companion Vol. I Elite Video will teach you how to get the most from Panasonic's AVE5 or MX10/12 digital video mixers, including how to use them as dual channel, time-based controllers for input to your Toaster system. 75 mins. V4014 \$39.95

The Digital Mixer Companion Vol. II

Learn how to do effects with your mixer which shouldn't be possible, but are -- with Elite Video's secrets. V4015 \$39.95

Digital Mixer Companion I & II Get both volumes and save! V4016 \$69.95

printer, and many more.

WB55: Application - XCopyIII - a full featured disk copier, make backups of copy protected disks. RoadRoute - find the quickest route from one city to another-highway description included. Diary, a diary program like "Doogie Houser M.D.". Cal, a calendar program. Magman, a database tailored to maintain records on articles and publications.

WB59: Business - contains a great very full featured stock market technical analysis and tracking program--also an appointment calendar, and more.

WB61: Intermediate Utilities - Includes programs to help to drastically decrease flicker on your interlaced workbench screen--Antiflick, an Atari-ST emulator, an EProm programmer, turn your Amiga into an eight channel digital data analyzer or oscilloscope, and more.

WB62: MIDI Utilities - Several useful midi utilities including programs to transfer to and from several music programs to midi, a MIDI sysex handler, a MIDI recorder with timebase, display MIDI info, file sequence player, and a few scores.

WB63: Disk Utilities #3 - Several highly recommended programs to aid in removing duplicate files from your hard drive, performing file backups, Binary editing, fast formatting, file recovery, disk track recovery, and forced disk validation of corrupt disks.

WB66: Icons #2 - Lots of neat icons. Also, several wonderful programs that to let you create your own icons, modify and manipulate icons and info structures.

WB68: Music Utilities - several good utilities for the Amiga music enthusiast. Includes Noisetacker, a great music creation program. Sonix2MOD, converts sonix to .MOD files which then can be used by Noisetacker, Soundtracker, or MED. SpeakerSim, a speaker design tool demo. Wondersound is an additive harmonic design tool.

WB69: Music - This disk has over 90 minutes of classical and modern music for you Amiga.

WB70: Desk Top Pub - Atcp, transfer Macintosh screen fonts, Mac or IBM format .AFM metric files, to Amiga screen fonts and PPage .metric files. With this program open the door to the libraries of Adobe and PostScript type! Calendar, month templates in PageStream format. Post, a full featured Postscript Interpreter with file display and print to dot matrix utility.

WB71A&B: The A64 Package - A very complete Commodore 64 Emulator. Supports any CPU and is fully compatible with WB2.0. This software emulator actually runs faster than a 64! Amaze your C64 friends! Two disk set, counts as two.

WB72: Directory Utilities - The programs on this disk are very powerful and come highly recommended. They are designed to make CLI and shell tasks virtually obsolete. These programs make the Amiga much easier to learn and use. From the Workbench environment, do file and directory manipulation include coping, deleting, moving, display text, edit text, view images, playing sounds, create directories, find files, group unarchiving--with many user definable functions and options, and much much more.

WB74: System Utilities - MachIII, our favorite mouse, hotkey, screen blanker, autoCLI and autopoint all in one program. Iconize, a 16 color icon editor. NoClick, stop drive clicking. ReMapIcon, covert 1.3 icons to 2.0, and more.

WB75: Music - Over 100 instruments files (.inst) and sample sound files (.ss) for your music programs.

WB76: Applications - Contains Stichery - an often requested knitting design program. Lotto, a rather complete lottery tracking and prediction utility. SSS, this screen capture program can grab almost any screen including games. Today, a personal calendar. Tarot, fortune teller and a grammar checker.

WB77: AV Demo - A well done Amiga Vision Demo program.

WB79: Home & Business Accounting - Includes Checkbook Acct (1.0). LCDCalc, this well done calculator has a very large display and operates from the keyboard or mouse. Mileage Master, monitor your automobile mileage with this mileage log. Grammar, a grammar checker and Worldtime, find out what time it is in up to 50 global cities.

WB80: Graphics - Raytracing programs generate absolutely stunning realistic looking planes, rockets, buildings..., and surreal images often consisting of highly polished spheres and objects. 3-D Master is the most powerful EASY-TO-USE of it's kind that we have seen to date. This is easily better, and more full featured, than similar commercial programs costing in the hundreds of dollars.

WB81: Great Applications - DataEasy a very

easy to use, database program. Don't let the easy of use fool you, this is a very full featured database program including full printer control for address labels and mail merge applications. Also includes TypeTut, a good typing tutor. RLC, a full featured label printer. Banner, a multi-font banner maker and Budget, a home accounting in a program. Highly recommended.

WB82: Animations - Four full-length, great movie style animations. Including, Coyote, JugglerII, GhostPool, and Mechanix. 2 disk set, counts as 1! Coyote req. 1.5 MB.

WB83: Computer Art - this disk has some of the best Amiga generated computer art that we have collected in the past 5 years.

WB84: General Enjoyment - A fun filled disk that contains, I-Ching the ancient chinese art of fortune telling, FastLife, an extremely fast life implementation and several "Schwabie" type hacks that are loads of fun to watch. A very

Spotlight

WB105AB: Workbench 2/3 Extras #2

This set contains the programs that *should* have been included with WB 2/3. These powerful utilities take full advantage of the numerous new capabilities that are available in Workbench 2.x and 3.

Tool Manager - a wonderful utility to add programs to your "TOOL" menu, create a collection of icons on the workbench to easily launch frequently used programs...and much, much more! A true must have utility!--ALL of our Amigas rely heavily on this utility.

Virus Protection - as simple as dropping an icon into your WBStartup drawer!

Font Editor - Create/edit bitmap fonts with full color font support!

Magic File Requester - This totally configurable, icon-driven file requester will replace the old Kludge that came with 2.x

Screen Blankers - ala fractals and splinters--no boring black screens.

Requester Enhancers - no more stale "please insert volume." or other system requesters--these are animated replacements for all of the system's requesters.

Degrader - helps get those non-2.x or 3.0 programs to work under 2 or 3...VERY useful!

Wallpaper - put Workbench on top of any IFF picture!

SafeReboot - can greatly reduce disk validation errors!

SysInfo - see everything that's under the hood of your Amiga and how fast it is.

Icon - Enhances Workbench's "Show All" to display distinctly different icons for over 40 different types of files (text, IFF's, ANIM's, Libraries, etc., etc.)

Two disk set, counts as two.

delightful disk, recommended.

WB88ABC: The Complete Bible - A 3 disk set (counts as three), with the entire text New Testament and Torah (Old Testament). 1MB.

WB89: Education - Fish, not your everyday electric eel, but a fun to experiment with simulated fish aquarium. Also contains a well done math quizzer, history, religion, geography and more.

WB90: Rippers, Strippers and Beats - For the Amiga music enthusiast, this disk contains many programs designed to strip music from your favorite games and programs. Music can then be played with your favorite PD Music program. Also contains Drums, a very nice drum machine. This disk can require moderate knowledge of the CLI.

WB91: AV Educational - Flags of Europe, beautifully presents all of the flags of Europe along with maps and geographic statistics of the Countries. Requires AmigaVision.

WB92: Animation Utilities - Includes CyroUtils; utilities for splitting, combining, and creating animations from IFF picture files. Also includes two animations to view or manipulate.

WB93: Workbench 1.3 Extras #2 - This disk contains the utilities that Commodore should have shipped with the Amiga: VirusX4.01, Snap, FixDisk (recover corrupt/deleted files), Disk Optimizer (floppy & hard), MachIII (screen blanker, hotkey, mouse accel., macro, clock utility), GOMF (a guru-buster) and PrintStudio.

WB94: Desert Storm - This disk contains an interactive hypermedia presentation about the

Upgrade your 500 or 2000 to the latest version of AmigaDOS. System 2.1. Includes ROM's and full system software documentation. While supplies last. Req. installation.
\$99

conflict in the Persian Gulf. Very nicely done with colorful maps/graphics.

WB95: Checkbook Accountant 2.1 - This program is definitely commercial grade; balance your checkbook in two minutes!!! Full budgeting, transaction recording and report generation.

WB96: Dupers - Contains XcopyIII & Nib which will backup copy-protected programs. FreeCopy removes copy protection from several programs, and SuperDuper will crank-out fast AmigaDOS copies.

WB98: Business - Includes BBaseII a nice, powerful database; BizCalc--a personal or mortgage loan calculator with amortization capabilities, Loop--a flowchart maker, Formmaker - design pro-looking forms on your Epson LQ-2500 compatible printer.

WB99: Lifestyles - Includes AGene--family tree program that tracks up to 600 people/marriages/etc. Landscape is a backyard CAD program to create gardens/landscapes. Loom simulates an 8 harness loom; experiment with design in an instant feedback environment.

WB101: Chemesthetics - is a program that displays molecules as a calotte model. This kind of display contains a certain esthetic attitude, even extremely poisonous molecules like nicotine or dioxine look quite nice.

WB102: Communications - Contains the tour-de-force programs NComm 1.921 and VT100-29B. Automatic Zmodem protocols, XPR protocol support, full VT100 emulation. NComm's script language is so powerful it comes with a script file that creates a full-featured BBS system. See also WB115.

WB103: Music - Contains 12 "great" Soundtracker/MED music MODules--complete with programmable/shuffle player..8 bit audio never sounded so hot! 2 disk set counts as 2.

WB104: GrabBag - Q&A Trivia (requires AmigaVision) is a trivia game for 1/2 players...add your own questions to customize the difficulty level! Sysinfo is great for telling you how fast/slow your computer is, what boards are installed, chipsets, etc. AmiGazer will plot stars in the heaven from any position on earth complete with magnitudes and constellation identification.

WB106: Home Manager - This is a great all-in-one address book with an autodialer/notespad/to-do list/appointment scheduler/home inventory database and an important phone number dialer.

WB107A&B: DrawMap - This program generates representations such as hemispherical views, and orbital views of the Earth's surface, complete with national boundaries. Screens can be printed or saved to disk as standard IFF files. Full user-configurable online help facility. 68020+ version included. Req. 1.2MB.

WB108: OctaMED - This breakthrough program doubles your Amiga's sound capabilities from 4 channels to an ear-popping 8 channels! All the renowned editing capabilities of MED plus 4 more channels! If you thought your Amiga sounded good before...you ain't heard nuthin' yet!

WB109: VerseWise - Display, search and print The New Testament to text files to your printer.

WB110: Electronic Baby Book - Immortalize your children on your Amiga! Tracks everything about your newborn--first steps, words, tooth, birthdays, X-mas, friends, etc.--even has provisions for a digitized photo!

WB111: Cellular Automa - Straight from the pages of the January 1990 issue of Scientific American, this electronic model will allow you to simulate cellular circuits.

WB112: Productivity/Business - Stock Analysis allows automated downloading of stock data with full analysis capabilities (requires modem). SubStore will allow you to log magazines and articles with full search/scan/print capabilities.

WB113: SID II - Why pay 40 bucks for a directory utility, when this one will do it all plus much more! A truly professional-caliber program. SID 1 was our best. Now, completely rewritten, SID 2 sets the standards for all others to follow.

WB114: Fonts #4 - Contains 36 bitmap fonts.

WB115: Term - If you have AmigaDOS 2+ and a modem, then this is THE program for you. Term totally conforms to the User Interface Style Guide for 2.04+, has an ARexx port, and supports all popular file-transfer protocols

through XPR libraries. We wish all programs were written to this caliber!

WB116: Databases - This is what you've been waiting for! Contains 5 uniquely specialized database programs for tracking: Videotapes, CD's, Magazine Articles, Comic Books and Trading Cards!

WB117: Religion - Contains Scripture Mem (aids in memorizing verses and passages) and in Paul's Journey, you are Paul of Tarsus exploring the Mediterranean and preaching just as Paul did. Req. 1 MB RAM.

WB118: Amiga Beginner - you asked for it! A tutorial for the beginner on using your Amiga! Covers the CLI and Workbench making this an invaluable tool for learning how to really use your Amiga. Also contains numerous beautiful 16-color icons for WB 2.1--a replacement icon for every Workbench 2.0 program--all designed with colorful continuity and sometimes humor. A much needed system improvement--instantly makes your Amiga much more professional looking.

WB120: Grinder - a complete graphics conversion package that supports GIF's, JPeg, Atari ST(Neochrome & Degas), PCX, Targa, TIFF, Ham-E and IFF format pictures. Easily convert pictures from one format to another instantly.

Video Disks

VO1: Graphics - Includes FreePaint, a Deluxe-Paint workalike. AGraph creates colorful pie, bar and line graphs. PicBase shows reduced versions of all your IFF pictures and tracks which disk or where in your system that picture is.

VO2: Stillstore - Used to create the "over the shoulder" graphic inserts, ala the 11:00 news.

VO3: Image Utils - JPEG converts between JPEG and 24-bit IFF. ImageLab performs many effects from simple averaging to fast fourier transforms. VideoToolsOnTap does fades, colorbar & greybar generation and other useful video functions. TitleGen will do crawling credits/titles.

VO5: Modelling - Vertex allows you to create 3D objects without using the abstract X, Y and Z views. Vertex can read Sculpt, Turbo Silver, Imagine, LightWave, GEO and WaveFront formats. MagicTween will metamorphasize any two pictures by automatically animating the "in-between" frames.

VO6: Modelling Objects - Contains 20 vector objects in Imagine format. These are perfect for use with Imagine or with our very own VO5 diskette. Includes Amiga 3000, space station and many more!

VO7: StarTrek Objects - Contains the USS Reliant, NCC-1701D (Star Trek: TNG) a Ferengi Marauder ship. As an added bonus, contains a fully detailed Porsche 911 and Apache Attack Helicopter, all in Imagine format.

VO8: CompuGraphic Fonts - Contains 2 clipart-style fonts and 4 actual typefaces for use with WB2.04 and its Fountain utility. Great for desktop publishing and/or video projects.

VO9: 24-Bit - Contains Rend24 which allows you to proof Toaster-generated 24-bit animations. Also contains utils to convert IFF's to IBM VGA/Windows readable format. Also contains latest release of JPEG file compressor.

Dev Disks

DD45: ARexx Programs - This disk contains several useful ARexx programs and examples. PopCLI4, the latest of a must-have utility.

DD47: Pascal - This disk contains everything needed to program in Pascal. Includes A68k, 68000 assembler. Blink, linking software and PCQ (1.0), a modest Pascal sub-set compiler.

DD49: C Compiler - contains zc(1.01) fully K&R, zcc(1.0) front end, A68k(1.2) assembler, Blink linker.

DD50: ARexx #2 - a must have set of tutorials

For the Amiga ...

on ARexx and several useful examples and utilities for ARexx development.

DD51: Circuit Analysis - Aspic (2.3), a full featured program for electric circuit analysis.

DD52: Scientific - Includes Elements, an incredibly well done periodic table program with source. Scientific plotting, over 600K of Lattice C source routines that can be included in your own programs.

DD54: Compression - This disk is loaded with ALL of the best file compression programs and aids for the Amiga. Many of the programs can be used by the new user. Includes Arc, Lharc, Lhwarp, Pkarc, PowerPacker a must have by all, Zip, Warp, and Zoo. Also IFFcrunch, an excellent compression for IFF files.

DD55: ARP - On this disk you will find the complete Arp3.0 release including the full user docs, the full Developers guide, and Conman (1.4). ARP is the official AmigaDOS Resource Project (ARP) release 1.3. ARP makes many improvements to AmigaDOS and makes your system easier to use from the CLI.

DD57: Advanced Utilities - Msh--like Cross-dos--copies files to and from MS-DOS. Pal-NTSC, convert any PAL system to NTSC and vice versa (if you have >512K chip memory). Also several utilities that improve your startup sequence, plus 25 more programs.

DD63: Tests - Contains all of the classic speed tests and system checks we could find. Includes CPU Speed, Sieve, Salvage, STU, a full featured system diagnostic tool. Memory integrity test, Disk integrity test, and more.

DD65: C Tutorials - Several well done tutorials on how to program the Amiga. Includes

tutorials and working examples on device drivers, IFF reads and writes, sound implementation, arcade game design and implementation, double buffering, and others. A must have for Amiga programmers.

DD66: Programmers ToolBox - Many programs to help in your development efforts (most for C some for Basic). Includes programs to generate requesters, an incredible spritemaker toolbox--to greatly aid compiling--convert DPaint brushes to C structures. A great library manager, and many more wonderful time savers!

DD69: Advanced Utilities - SerNet and ParNet, connect two Amiga's and share resources via serial OR parallel port. MemMonitor, similar to WFRag but greatly improved. Selector, put menus on your Workbench screen, and more.

DD70: Game Construction/Parser Tool - ADL (which stands for "Adventure Definition Language") is a programming language and run-time environment designed for the convenient writing of adventure games.

DD71A&B: C compiler - This disk contains D.I.C.E., Matthew Dillon's full featured, powerful C compiler and environment system. Counts as 2 disks. Also see DD79.

DD77: Fortran - Contains a full featured fortran environmental development system. Also contains EzAsm, a strongly macro dependent 68000 assembler.

DD79ABCD: Amiga C Tutorial - This is the most comprehensive C language, Amiga-oriented set of tutorials available. Includes full working examples, source code

and an incredible set of lessons. Included are full discussions and examples of every topic on Amiga programming. 4 disk set, counts as 3.

DD81: ARexx Tutorial - Includes several sample Arrex scripts and sample programs. Also includes APig; a library that gives you access to Intuition from within ARexx scripts.

DD82: Unix - Contains a working demo of Minix - a Unix workalike. Minix is system call compatible with V7 of Unix, supports multitasking and multiple users and many more features too numerous to list here.

DD83: IBM - These demos, IBeM and PCTask, will both allow the running of MS-DOS software with Amiga programs!!! Comes complete with programs to turn your Amiga floppy drives into 720K IBM compatible drives. Compatible with MS-DOS 5 and Windows!

DD84: Proteus BBS - This disks contains the full-blown version of the Proteus BBS software. Totally configurable & ultimately powerful. Requires a hard-drive, ARexx and at least a meg of memory.

DD85: AnalyRIM - This program combines the power of an electronic spreadsheet and a relational database into one incredible program. A very advanced program, for an advanced user. Req. 1 MB.

DD86: Programmer Tools - Use GadTools to design your user-interface using all of AmigaDOS 2.0+'s new features and it will automatically generate either "C" or Assembler source code for you!!! ReqTools will do the same for requesters as well!!! An invaluable time-saving tool for all serious programmers.
